

Lions Newsletter January 2022

Dear Parents,

May God bless you as we return from a very busy and happy holiday season. I am very pleased to see all of you back for another wonderful part of the school year. I would like to begin this year by saying thank you to all of the parents and children for the thoughtful gifts I received this past Christmas. Words cannot express how truly grateful I am for being so wonderfully blessed this past holiday season. It is an honor to serve you and your children. Thank you for all you do!

As we begin our new year, please remember to check the calendar daily activities in the classroom. Our theme for the month of January is Winter with an emphasis on Epiphany. We will discuss the various changes during the winter season. We will take walks outside to see how the weather has changed. Look in your child's cubby for fun winter projects that we will do as a classroom. In addition, this month we will read the story and talk about the meaning of Epiphany.

Our Fruit of the Spirit is Patience. We will read stories and talk about how patient God is with us. We will review what happens sometimes when we are not patient. Our shape is the rectangle. We will learn the many sides of the rectangle and trace it with our fingers in Shaving cream. Our color is white. We will use the color to paint creative pictures and other winter scenes. Our Community Worker is the Storyteller. Our Bible Words for January "The crowds were amazed at his teaching." Matthew 7:28 May God bless you and your family with good health and happiness in the New Year!

Your sister in Christ,
Ms. Cher
